

BILL BONINI

519 I St. Rock Springs WY 82901

E-Mail bill@indsafetyequip.com zamazolo@sweetwaterhsa.com

Work: 801 288-4009

Home: 307 382-7691

PROFESSIONAL ACCOMPLISHMENTS

- Electrical Engineer
22 Years Experience (1993-Current)
- Journeyman Wireman's License WY J-3981
15 Years Experience as an Electrician. (1984-Current)
- E.I.T. (1992)

EDUCATION

- BS: Electrical Engineering, December 1992
University of Wyoming Laramie WY G.P.A. 3.766
- J.A.T.C. Apprenticeship Diploma, May 1988
Casper College Casper WY

DESIGN WORK

- Boiler Controls Gas & Coal (Burner Management Systems NFPA85, Boiler Instrumentation and Discrete Controls).
- Power House Controls (Fly-ash, Soot Blowers, Feed-water, Water Lab, Precipitators, Emissions FGA, Opacity Systems)
- Power Systems 34.5KV, 13.8KV, 4160V & 480V (Trip & Close Permissive Logic, Motor Controls, Protective Relay Applications with Beckwith, Schweitzer, Basler, GE & Mechanical Relays, Motor Protectors, NFPA70A & 70E)
- Load-shed Controls (Plant Self Generation on loss of Utilities).
- Generator Controls 0-50MVA (Woodward 505E, Trip & Permissive Controls, Instrumentation, Flux, and Partial Discharge).

RELIABILITY & PERDICTIVE MAINTENACNE

- Generators (Flux, Partial Discharge Polarization Index, Running DC and Over-potential, Set scope & shop monitor for any Stator, Core, and Rotor repairs and testing).
- Transformers (Gas and Oil Analysis, Set scope & shop monitor for repairs and testing).
- Preventive Maintenance form build, update, scheduling, and monitoring.
- Infrared monitoring, reports, and follow ups.
- Systems failures analysis and root cause corrective actions.

COMPUTER SKILLS

- General Software (Microsoft Packages, AutoCad LT, SAP).
- Diagnostic Software (Schweitzer, Beckwith, IRIS Power, Gentech, Bently Nevada, Nuendorfer, SKM Power Coordination and Arc Flash analysis, PI Statistical Trending).
- Control Systems Software (PLC Ladder Logic (AB & GE), DCS (Moore, Citect Sixnet), AB Panelview, Multilin, Flowel).

RESPONSIBILITIES

- Estimate Upgrades and Corrective Actions with alternatives and risks. Supply Memo of Justification for upgrades.
- Estimate Costs for new technology or future budget projects.
- Start ups and system controls verification.
- Supervision of Electricians in projects and maintenance trouble-shooting. Training of electricians and operations.
- Emission equipment maintenance and reporting to Environment Department and EPA.
- Analyze and design engineering methods.
- Print generation or update, procedure generation or update.

TEACHING EXPERIENCE

- **Western Wyoming Community College 4 years**
- **National Ski Patrol Outdoor Emergency Instructor 11 years**

EMPLOYMENT HISTORY

- Western Wyoming Community College Electrical/Instrumentation
- FMC Utilities & Maintenance Engineering (Electrical)
- Bayview Elect. FMC (Electrician)
- Devoe Elect. Industries in Southwest WY. (Electrician)
- Bechtel Const. Nucla Power Plant. (Electrician)
- Norby Elect. Chevron Fertilizer Plant South RS. (Electrician)
- **Further history available on Work Experience Sheet.**
